What are the benefits of being Midwest Pickleball rated?

- Know how to identify your own and others skill set.
- Have more fun playing pickleball with players rated correctly.
- Play in tournaments against players of like ratings. Midwest Pickleball League will be rated.
- Be able to play in programs that require ratings.
- The best pickleball resort areas require players to be rated for higher level programs.
- Enable facility managers to create playing opportunities by rating levels.
- Rating events help players determine what their game needs improvement to move up.

The Midwest Pickleball Ratings Clinic will rate players from 2.5 to 4.0 rating level. Rating sessions will consist of 4 players at a similar skill level to yourself. You will play games with and against these people, with the raters observing your play. You will be playing doubles, but only your personal skills will be evaluated. The raters will move players around during the session in order to compare you with different players. Approximately one week prior to the clinic, each player will be given a 30-minute assigned time between the hours of 1:30 pm and 4:00 pm. All players must arrive a 1/2 hour early to check-in and warm up. At the end of each rating session, players will be given a Rating Scorecard showing their earned Midwest Pickleball rating. The raters are provided from *The Pickleball Academy* in Eden Prairie. All raters are highly experienced players and coaches from throughout the Twin Cities area. All raters are 4.5 & 5.0 level players.

Name: _____
